DETAILED ACTION

1. After the amendment filed 09/08/2009, claims 14, 24, 36 and 45 were amended. Therefore claims 14, 16-24, 26-33, 36 and 38-53 are pending.

Allowable Subject Matter

2. Claims 14, 16-24, 26-33, 36 and 38-53 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. Claims 14 and 24 distinguish over the prior art of record in that the Applicant specifically claims obtaining an audio track, saving the audio track without saving at least some metadata associated with the audio track, saving an identifier of the audio source on the storage device, after saving the audio track, determining when an online service that provides a database containing metadata associated with the audio track is available, connecting to the online service and obtaining the metadata associated with the audio track from the database and storing it on the storage device based at least in part on the identifier which is saved on the storage device; associating the user-created soundtrack with a game application, executing the game application on the game console and during execution of the game application, playing the user-created soundtrack and displaying information regarding the soundtrack based on the metadata. Claims 36 and 45 distinguish over the prior art of record in that the Applicant specifically coping the audio track without saving at least some metadata associated with the audio track, using an identifier of the audio source to retrieve metadata associated with the audio track from a database over a network connection from an online service when the

Art Unit: 3714

database is available, and saving the identifier of the audio source on the game console when the data base is not accessible and using the saved identifier to retrieve meta data associated with the audio track from the online service when the database is subsequently available; associating the user-created soundtrack with a game application, executing the game application on the game console and during execution of the game application, playing the user-created soundtrack and displaying information regarding the soundtrack based on the metadata. The prior art of record, alone or in combination, does not teach or suggest these limitations.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
